PURCHASE ORDERS AND REQUISITIONS

All materials, supplies, equipment, or services which require payment by the school **MUST** be purchased with a purchase order.

The School District's system of ordering and paying for goods and services is a standard practice. The Board of Education pays bills once per month. To know when orders are complete and, consequently, eligible for payment, items received must be checked against purchase orders themselves in the central office for correct quantity and price. Orders are then routed to the individuals who placed the orders.

School employees are **NOT AUTHORIZED** to purchase any item or have any service performed without an approved purchase order. The proper way to obtain one is as follows:

1. Make a request with the appropriate building principal for the purchase, and secure approval.
- 2 Fill out the requisition listing the items needed to purchase as well as costs, complete address, FAX number, and shipping costs of the company to which the order is made.

Upon approval by the principal, the requisition will be submitted to the central office for superintendent approval, processing, and ordering. **NO PERSONNEL** will be allowed to call in orders by telephone, fax them, or order from salesmen who call in person without prior permission from central office administration. Any matter requiring action of this nature **MUST** be done through the office.

When placing an order to preview materials on a TRIAL BASIS, the order must be submitted exactly as described above. In this way, the central office will know where the materials are to be sent. If such materials are to be purchased, they must be properly approved. Remember that materials ordered on a "Free Trial Basis" are not free. If materials are returned, the postage is charged against the appropriate account.

Anyone RETURNING materials or supplies, should do so through the office. The materials should be packaged, wrapped, addressed for mailing, and returned to the office. The central office must be made aware of all returns so that payments will not be made for items returned.

NO STUDENT should be allowed to write requisitions or be in any way involved with the purchasing or returning of materials.

NO PAYMENTS will be made by the school on purchases made without purchase orders. Should any order be sent/received without a purchase order, it will be returned promptly to the company and postage for the return charged to the appropriate account. Until the Superintendent (or designee) has approved and signed a purchase order, materials are NOT AUTHORIZED to be purchased.

Any questions regarding the District's purchase ordering system can be answered and clarified by contacting the Central Office in either Alta or Aurelia.

All money collected by the school must be routed through the school's accounting system. This is standard practice in most schools. Adherence to the following guidelines is required.

1. ALL PURCHASES by school clubs, organizations, and classes must be made using the District's purchase ordering system.
2. No organization or class may set up an account with the bank for any reason. All payments must be made by check by the school bookkeeper.

Employee participation in certain extra-curricular activities shall be compensated entirely according to the rate of pay and job description on Schedule B, including years of comparable past activity experience, which is attached hereto and made a part thereof. Placement upon the schedule will be monitored by the Association. These duties shall require additional work beyond the base time of 7:45 a.m. to 3:45 p.m.
- B. In addition to teaching duties and supplemental pay duties, the employees shall perform some additional duties that shall not involve additional compensation.
- C. A teacher may be assigned up to four (4) extra duty assignments per school year in exchange for an activity pass for the employee and spouse. It is our understanding that these assignments will not be made for the sake of having the teachers work four (4) duties.

A teacher may request to have their assignments exchanged for a legitimate reason, e.g. from basketball to football because of health. Teachers may exchange assigned duties among themselves; however, they shall notify their building principal of the change. When a teacher works more than four (4) assigned duties they will be paid ten dollars (\$10,00) per event.

PHASE AND Teacher Salary Supplement

The salary of each employee covered by the regular salary schedule is set forth as follows. There shall be one combined salary schedule in the contract with one salary number in each cell, denoted "Schedule C" Schedule C shall be created by combining the regular salary schedule through the Generator Base, including old Phase II money plus the remaining TSS money (Total TSS money minus old Phase II money) paid on a flat rate monthly for each teacher and divided equally. Generator Base shall be BA lane/step 1 Schedule A and the Combined Total Base shall be arrived at by adding the Generator Base plus non-Phase II TSS moneys.

Termination or reduction of TSS Funding will result in the Combined Total Base Salary of Schedule C, being reduced if and by whatever means legally permissible, in an amount that reflects the dollars the District fails to receive, said reduction being distributed among the teachers on a pro rata basis.

TSS funds remaining at the end of the contract year will be distributed equally in the August paycheck.

SOCIAL MEDIA

Definitions

Social media includes all forms of online publication where individuals engage in conversation or posting of written or visual information (such as blogs, podcasts, virtual worlds, messaging sites and social networks). Some of the more familiar social media tools include such online services as Twitter, Facebook, YouTube, Instagram, Pinterest, Snapchat, and LinkedIn. This list is by no means comprehensive or exhaustive; new social media platforms are continually introduced to the marketplace. The same set of professional expectations applies regardless of the choice of social media.

Professional Use: Refers to using social media to advance a program or function of the Alta-Aurelia School District as part of an employee's job responsibilities.

Personal Use: Refers to employees using social media to advance themselves personally.

Personal vs. Professional Use

The District does not take a position on an employee's decision to participate in the use of social media for personal use on personal time. If, however, employees choose to use social media for personal use on personal time, they should not communicate with students and/or their families regarding topics pertaining to their official roles at Alta-Aurelia. District-provided communication tools such as an employee's school email account, voicemail account and/or district website should be the primary means by which employees should engage students and/or their families in communications pertaining to your employment responsibilities.

Employees' online behavior on social media must reflect the same standards of professionalism, respect and integrity as face-to-face communications. When using social media for personal use, if you identify yourself as an employee of the Alta-Aurelia School District, you are by extension associating yourself with the District, your colleagues and our school community; therefore, you must ensure that any content is consistent with the mission of the district. The District recognizes that student groups or members of the public may create social media representing students or groups associated with the District. When adults authorized to interact with students (coaches, advisors, volunteers, etc.) choose to join or engage with these social networking groups, they do so as if they were paid employees of the District. All employees are responsible for maintaining appropriate employee-student relationships and are responsible for addressing inappropriate behavior or activity on these networks. This includes acting to protect the safety of minors online.

1. You are Always a District Employee

- a. The lines between public and private, personal and professional can be very blurry in the digital world. Please keep in mind that you will be publicly identified as working for and sometimes representing the district in what you say and do online.
- b. Always write in the first person and make it clear that you are speaking for yourself and not on behalf of the district. If you are speaking on behalf of the district, make sure you have secured prior authorization to do so from the Superintendent or his/her representative.
- c. Do not share confidential information about school business, students or your colleagues.

2. Be Professional

a. Respect the District's core values. Assume that anything you post is public and will be viewed by everyone in your personal and professional domains.

b. Do not use any school logo or image without prior permission.

3. Respect Others and Ensure the Safety of Students

a. Respect the privacy and the feelings of others and do not, under any circumstances, post offensive comments about students, colleagues, or the district in general. Negative comments about others may be interpreted as cyber-bullying and could lead to disciplinary action.

b. Employees who join or engage in social networks that include students have the responsibility for monitoring content and addressing appropriate behavior or activity, including the protection and safety of minors.

c. Do not post photos or movies of fellow employees without their permission. Do not post photos or movies that contain students to public social media sites without parent consent unless those images are taken in the public arena, such as sporting events, or fine arts public performances.

4. Manage Employee/Student Relationships Carefully

a. Social media can be an effective tool for communication between teachers and students.

· However, do not connect with students *via personal* social media networks. Employees are prohibited from establishing inappropriate personal relationships with students. Do not fraternize with students as if they are your peers or friends. Unprofessional relationships, specifically pertaining to social media include: connecting on personal accounts; writing personal posts or comments; sending inappropriate pictures or video content; discussing or revealing personal matters about your private life or inviting students to do the same; engaging in sexualized dialogue in any form.

· b. Inappropriate or offensive content posted to social media sites by employees and viewed by students, parents or other employees may be investigated by building and district officials and, if warranted, may result in disciplinary action.

c. Occasionally there may be the need for students and teachers to be in dialogue outside of regular school hours and activities. In these instances, approved district communication channels (such as Remind™) are to be used. A principal and parents/guardians should also be invited to be members of such groups.

d. On the rare occasion when texting is the most logical avenue for communication with an individual student or small group of students, the message should be brief, factual, and include the administrator overseeing the activity.
